

## AHR EXPO 2020 Product Information

### **The Brute FT® Combination Boiler/ Water Heaters**

The Brute FT® is ENERGY STAR® rated for ultra-high efficiency. It adjusts fuel usage to match demand, saving up to 20% on heating bills compared to standard “on-off” boilers. Available as a combi or as space heating only, in wall hung or floor models in either NG or Propane.

### **The Brute FT® Combination Boiler/ Water Heaters**

Bradford White's Brute FT® combination boiler/water heater's modulating technology automatically adjusts fuel usage to match heat demand, saving up to 20% on heating utility bills compared to standard “on-off” boilers. The Brute FT® is ENERGY STAR® rated for ultra-high efficiency of up to 95% AFUE. The Brute FT is environmentally-friendly with low NOx emissions, has a compact design and can be vented up to 100 feet in PVC, CPVC & Polypropylene. It is available as a combination heat/water heater or space heating only, in wall hung and floor models in either Natural Gas or Propane.
