

## AHR EXPO 2020 Product Information

### Laars Mascot® FT Combination Boiler and Water Heater

The Mascot® FT is a 95% AFUE modulating fire-tube boiler that operates on natural gas or propane. Sizes: 120, 140 and 199 MBH combi or 80, 100, 120, 140 and 199 MBH heating only. Combi models include an integrated mini-indirect tank resulting in superior DHW performance with minimal temperature fluctuations.

---

### Laars Mascot® FT Combination Boiler and Water Heater

The Mascot® FT boiler features a robust fire-tube heat exchanger, is fully modulating to save fuel and has an AHRI certified 95% AFUE efficiency. The natural gas or LP-fired Mascot® FT is offered as a combi unit in 140 and 199 MBH sizes or as a heating boiler in 80, 100, 140 and 199 MBH sizes. Combi models include an integrated mini-indirect tank resulting in superior DHW performance by minimizing temperature fluctuations and providing hot water quickly.

Features include an easy-to-use control system, coated control board protecting it from moisture, outdoor reset, domestic hot-water-priority, and can be vented up to 100 feet.
