BRADFORD WHITE

BRUTEFT

Wall-Hung Boiler or Combination Boiler and Water Heater

Stainless Steel Fire-Tube Design 95% AFUE

Up to 10:1 Modulation

Vents up to 100 Feet (30.5m) in PVC, CPVC & Polypropylene

Natural Gas (standard) – All Models Come With LP Conversion Kit

Cascade Multiple Boilers in Larger Applications

Exceptional Residential Heating and Hot Water to Meet the Demands of any Household

The Brute FT® Wall-Hung Series Heat and Hot Water in One Space-Saving Package.

The Brute FT® Series advanced fire-tube heat exchanger uses the latest technology in fire-tube construction with a corrosion-resistant stainless steel design, resulting in quick heating response, ultra high efficiency & years of reliable service. This design greatly reduces heating bills when compared to older, low-efficient boilers – up to 20% lower! Potentially saves thousands of dollars in heating bills over the life of the boiler.

The Brute FT® Hot Water Advantage

By combining both storage and recovery capacity, the Brute FT® Series Combi boiler's unique, integrated domestic hot water mini-indirect tank delivers stable hot water on demand.

- Contains up to one gallon of stored hot water on standby at all times.
- Quicker hot water delivery. The Brute FT® combines storage with on-demand hot water for faster performance.
- Compact design saves space. The Brute FT® Combi saves space when compared to a boiler and indirect water heater. Perfect for tight spaces and smaller homes.

95% Efficient

The Brute FT® Wall-Hung performs at an ultra-high efficiency of up to 95% AFUE (Annual Fuel Utilization Efficiency) and is ENERGY STAR® rated, making it one of the best in the industry.

Brute FT® Series mini-indirect tank technology

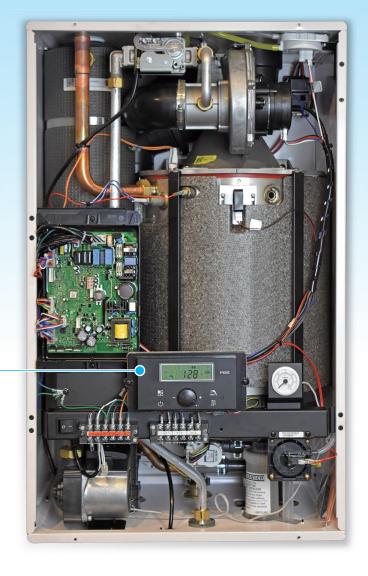

- Domestic hot water stored in a coiled, stainless tube.
- 158°F (78°C) boiler water surrounds the domestic hot water coil keeping it hot at all times.
- Tank is surrounded in a heavily-insulated wrap to minimize heat loss.

Brute FT[®] Series Proven Innovation

- Modulates with up to 10:1 turndown to reduce energy use.
- Durable, Stainless Steel Fire-Tube Heat Exchanger offers long life and superior heating performance.
- Long life, high performance blower offers reliable, quiet operation.
- Integrated, fast acting domestic hot water tank resulting in fast hot water delivery when you need it.
- Left side access panel to help getting to hard to reach components.

Brute FT® Advanced Control System

- · Quick set-up control functions.
- · Outdoor Reset, to maximize efficiency.
- Conformal coating encapsulates control board protecting it from moisture.
- · Anti-freezing control.
- · Cascade up to 20 heating only units.

Contractor Friendly

Designed for easy installation and constructed with the installer in mind!

OPTIONAL INSTALLATION ACCESSORIES

Condensate Neutralizer P/N A21236

Piping Manifold – Combi P/N P2134400

Piping Manifold – Heat Only 100-140 MBH – P/N P2135900 199 MBH – P/N P2135800

Low Profile Terminal – Flush Mount 2" (51mm) P/N CA010100 3" (76mm) P/N CA010101

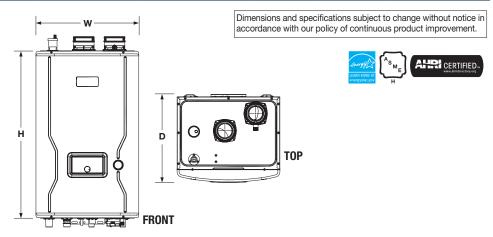

Concentric Vent Terminal – Bazooka 2" (51mm) P/N 415-44069-02 3" (76mm) P/N 415-44069-01
