PRODUCT IMPROVEMENT: NEW Blowers for eF and Commander Series®

Dear Valued Customer,

Bradford White has transitioned to a new blower used in the eF Series® and Commander Series® products. The main benefits of this new blower are an overall reduction of sound and vibration when compared to common water heater blowers.

The improved blowers, branded as *Galaxy* by Fasco®, are backward compatible and can be installed on most existing Bradford White eF Series® and Commander Series® products. See the following charts for specifics on part numbers and cross references on the new blower repair kits.

eF Series® products:

EF Series Blower Changes Serial “XC” (March 2021) and later (Includes -895 models)
